

‘new horizons new hopes’

شركة اوهايو للخدمات النفطية. ذ.م.م.
OHIO Petroleum Services Co. W.L.L.

About us

Founded in the year 2012, OHIO Petroleum Services Co. has set new parameters of excellence in the field of oil and gas industry. Driven by highly professional engineers in all disciplines, the company has successfully introduced new technologies required for creating powerful assets, which in turn will help to provide quality and safe services while cutting down on time.

Over the period, OHIO Petroleum Services Co. has evolved from a young pioneer into an established international petroleum, exploration, trading and production company.

Company Perspective

OHIO PETROLEUM SERVICES CO. is more than a collection of assets. It is people working together. Our culture, our leadership style and our management processes all Endeavour to reflect this belief. If we are to achieve our business objectives, we must focus on some enduring themes: establishing and maintaining a motivating and supportive dialogue between leaders and their teams: this will help to build confidence and stimulate innovation from everyone who works for **OHIO** PETROLEUM SERVICES CO.; developing first-class leadership at all times; maintaining consistently high standards in recruitment; continuously developing people's skills at every level and thus enhancing the company's capability and flexibility; striking a balance in our management processes between local empowerment and wider integration across the Group.

Corporate Goal

At the core of OPS is an unshakeable commitment to human progress. Our products and services are creating the freedom to move, to be warm, to be cool, to see and enjoy a better quality of life. We believe this freedom is inseparable from the responsibility to produce and consume our products in ways that respect both human rights and natural environments. Confronting this paradox is our mission, which can be achieved. Where others see contradiction and conflict, we see opportunities for mutual progress.

We will be the magnet for people who wish to change the world with new ideas, delivering a performance standard that challenges the world's best companies.

We aim for a radical openness - a new approach from a new company: transparent, questioning, flexible, restless and inclusive.

Quality Policy

As team players ... We secure our clients' best interest by delivering on-time top quality products and providing innovative management solutions with integrity, performance and client-focused service.

OHIO Petroleum Services Co. is committed to satisfying customer requirements. Our focus is to provide our customers with services and products that exceed their expectation for quality and price. Our dealings with our customers and with each other are based upon mutual integrity and respect. We proactively monitor and evaluate our policies and procedures and implement changes where warranted.

Safety Policy

OHIO Petroleum Services Co., recognizes its responsibilities for effective management of Safety within the scope of its contractual obligations on each of its project

There is also recognition of the fact that control of accidents is the result of joint venture of management and employees for a common objective. The leadership for such an effort shall, however, originate from the management.

OHIO Petroleum Services Co., shall ensure that a practical and effective program of accident prevention is established on each of its projects and that all aspects of management and supervision of the project incorporate the fundamentals of the program.

OHIO Petroleum Services Co., Safety Program shall comply with the requirements of the Contract.

It is the policy of **OHIO** Petroleum Services Co., to provide and maintain safe and healthy working environment and to follow operating practices to safeguard its employees as well as the facilities and result in efficient operation.

Our Aim

The aim of **OHIO** Petroleum Services Co. W.L.L. is to be a growth-oriented industry leader respected throughout the world for the quality and competency of its people, the efficiency and scope of its operations and its rich heritage of honesty and integrity. OPS team have a passion for challenges, continuous improvement, excellence and particularly value people, the environment and integrity which leads us to our dream.

Our Mission

Although not specifically labelled a "mission statement,"

OPS has a published statement of

"WHAT WE STAND FOR":

"OPS wants to be recognized as a great company – competitively successful and a force for progress. We have a fundamental belief that we can make a difference in the world.

We help the world meet its growing need for heat, light and mobility.

We strive to do that by producing energy that is affordable, secure and doesn't damage the environment.

OPS is progressive, responsible, innovative and performance driven."

OPS further define its mission to be "progressive, responsible, innovative, and performance driven".

"Progressive - We believe in the principle of mutual advantage and build productive relationships with each other, our partners and our customers."

"Responsible - We are committed to the safety and development of our people and the communities and societies in which we operate. We aim for no accidents, no harm to people and no damage to the environment."

"Innovative - We push boundaries today and create tomorrow's breakthroughs through our people and technology."

"Performance Driven - We are committed to deliver on our promises through continuous improvement and safe, reliable operations."

Heat Treatment Services

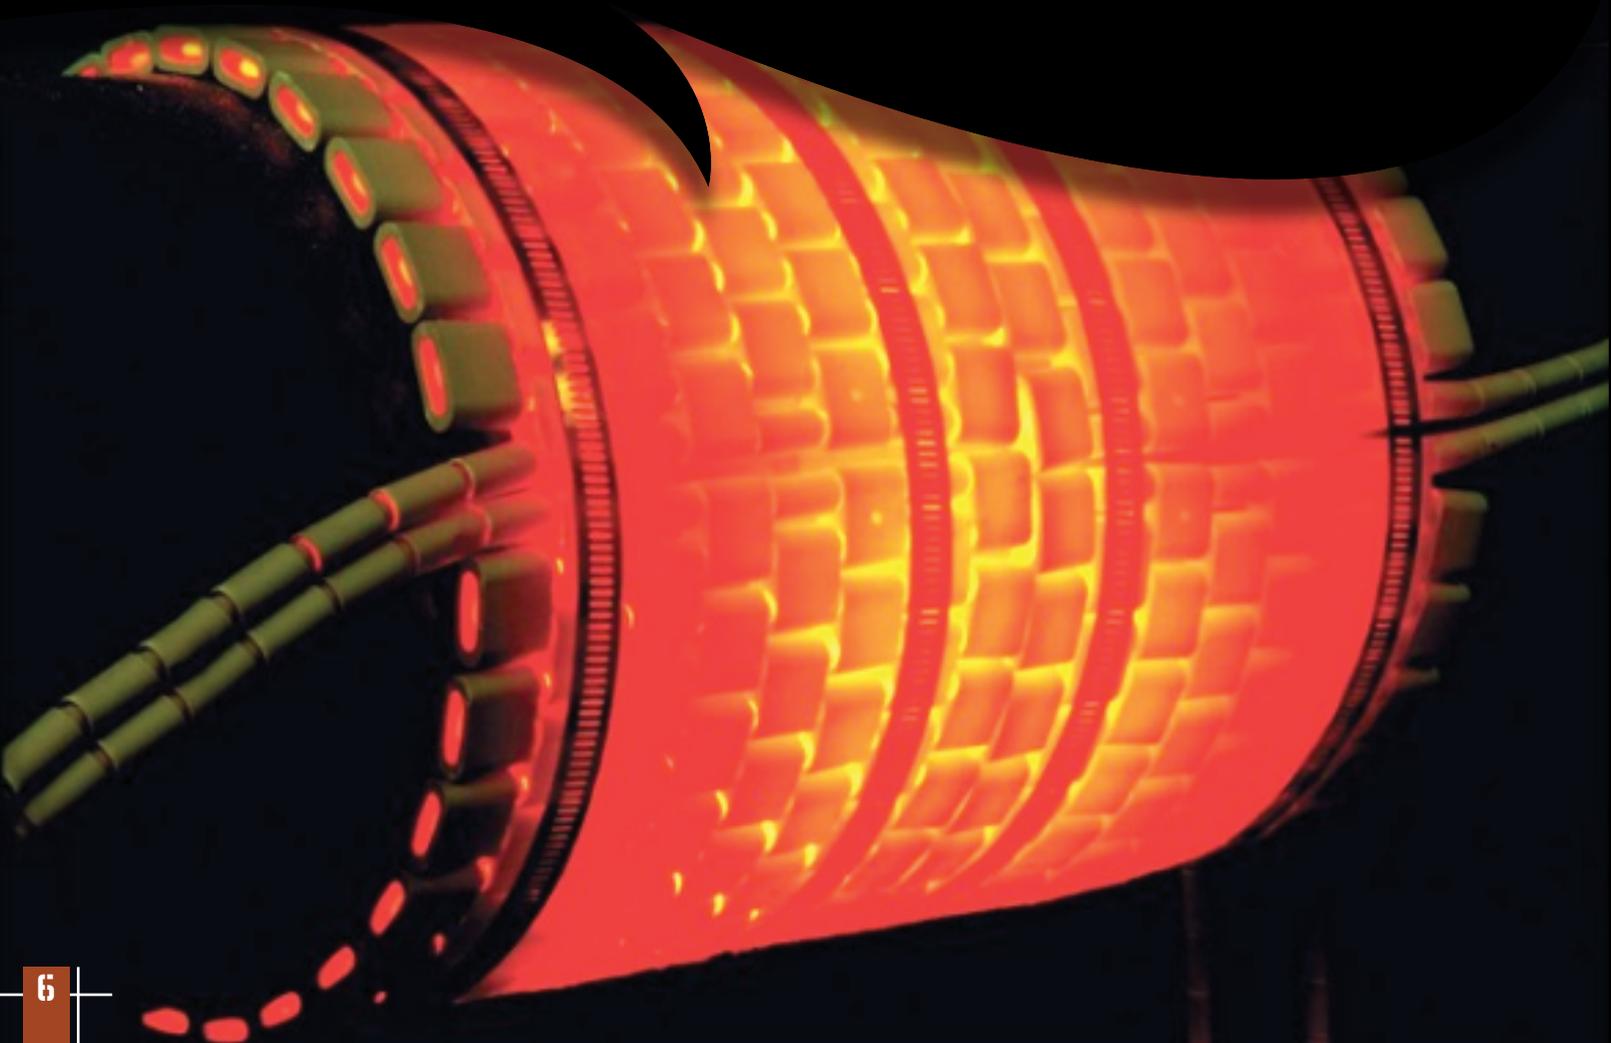

OPS (OHIO Petroleum Services Co.) , a regional innovator in comprehensive on-site plant and pipeline maintenance continues to set new industry standards by utilizing the latest in thermal processing technology. As the promising innovator in the heat treating service's industry, OPS has heat treating options from low-voltage systems to high-velocity combustion systems.

Our field personnel are exceptionally qualified and experienced in on-site heat treating services, which is why we're able to give you fast and correct solutions for any type of heat treatment situation. We manufacture, own and operate the most complete and technologically advanced heat treatment equipment/machine available in the marketplace. The machine/equipment we manufacture is proprietary, is designed by our engineers and built at OPS manufacturing facilities. Our capabilities provide assurance to our customers that we can address virtually every possible heat treatment process regardless of temperature and /or application.

We offers a full range of heat treatment services through a wide range of temperatures. We utilize both electrical and fuel fired methods as a source of heating with the objective of bringing your project in on time and on budget.

Our onsite electrical heat treatment services include the following:

- Welding Preheat
- Post Weld Heat Treatment – PWHT
- Hydrogen Bake Out
- Heat/Shrink Expansion
- Permanent and Temporary Furnaces
- Calibration & Service
- Equipment Sales & Rental

Non - Destructive Testing Services (NDT)

OHIO Petroleum Service Co. W.L.L (OPS) offer a variety of conventional and advance NDT solutions in order to be a complete service provider for our clients. We pride ourselves on offering a complete range of solutions in order to meet any inspection need. Wherever the need, our NDE Services Group provides reliable, expedient, and cost effective services in a timely professional manner. We provide innovative testing services as stated below:

Conventional NDT

- Ultrasonic Testing (UT)
- Radiographic Testing (RT)
- Magnetic Particle Testing (MT)
- Liquid Penetrant Testing (PT)
- Positive Material Identification (PMI)
- Hardness Testing
- Ferrite Testing

Advance NDT

- Advanced Ultrasonic Phased Array & TOFD Examination
- Automated Ultrasonic Testing (AUT)
- Phased Array Ultrasonic Testing (PAUT)
- Time of Flight Diffraction (ToFD)
- Magnetic Flux Leakage on Tank Floors (MFL)
- Eddy Current
- Insitu-Metallography

ONSHORE PIPELINE PRE- COMMISSIONING SERVICES

We have a team of qualified and experienced engineers, technicians and operators who together can deliver professional expertise and quality service within the specified time frame. We have a good inventory of all equipment / instruments required for carrying out pigging, hydro testing, dewatering, drying (using air and nitrogen), nitrogen purging / inerting and nitrogen helium leak testing, and chemical cleaning activities for onshore pipeline projects.

With an excellent network of renowned principals and suppliers, we are confident of understanding the client's specific needs and enquiries, whilst offering our competent services at the best of industry standards.

For running smart tools (caliper / intelligent pigging) we have associated ourselves with a German-based company to carry out the above activities..

We offers the following pipeline services:

- Flooding, cleaning and hydrotesting
- Pneumatic testing of pipelines
- Dewatering of pipelines
- Drying of pipelines by vacuum, nitrogen or air
- High-volume fluid pumping
- Nitrogen purging and displacement
- Glycol and methanol swabbing
- Calliper pigging of pipelines
- Intelligent pigging of pipelines

We provide the following process services:

- Nitrogen helium leak detection
- Nitrogen purging and testing
- Chemical cleaning
- Oil flushing
- Bolt tensioning and torquing

SPECIALIZED INDUSTRIAL /SURFACE COATING

We provide surface coating services which improve product performance, increase productivity and improve lifecycle costs. We can help you increase the lifespan of your components. There are a number of wear mechanisms which can reduce the working life of metallic parts. Actions such as fretting, sliding, vibration, friction, galling and erosion will result in wear on a component.

Environmental factors and reactions to industrial chemicals can severely degrade the life expectancy of metal components. You have numerous corrosion resistant coating options to help combat the effects of corrosion and reduce the associated costs and time delays.

Our coating services include;

- Corrosion Resistant Coating
- Abrasion Resistant Coating
- Chemical Resistant Coating
- High Build Epoxy Coating
- Sandblasting
- Fiberglass Lining

THERMAN[®] 50A

Trading

OHIO Petroleum Services Co.W.L.L (OPS) retains and represents the exclusive distribution rights for machineries, equipments and it 's related accessories of leading international brands from Europe and Asia to cater the regional industrial requirements.

Through its strategic alliances with international brands, OHIO Petroleum Services Co.W.L.L has established an unassailable reputation in meeting its clients' commercial requirements through premium quality standards, after-sale service and technical support.

We offers an experienced and dedicated team to manage the sales, distribution, installation and commissioning our products line, which includes an immediate call-out service manned by our own team of trained professional.

Our leading brands

Manufacturer of compressed air treatment products.

Leading producer of high temperature ceramic fiber products.

Global leaders in industrial transmission manufacturing.

Manufacturer of new generation heat treatment machine.

Manpower Supply

One of OPS business innovations; is the establishment of a Manpower Supply division which has successfully served the needs of the Oil and Gas Industry in Kuwait.

With its established network affiliations in the industry, and proven track record of supplying the highest standards of manpower needs. OPS's dynamic team at Manpower is supported by the industry's most senior consultants generating the highest value added service team exceeding customer expectations.

Our presence on the ground and proven track record puts OPS Manpower in a strategic position to respond immediately and effectively to our clients business needs. OPS Manpower is confident in its ability to supply highly specialized engineering teams to cover the industrial requirements across a wide range of areas. Our Service areas are comprehensive for the industry demand.

The winning strategy of OPS to deliver perfect recruitment solutions is a combination of:

- Understanding our clients needs
- In-depth Industry knowledge
- Effective Planning

Training & Certification Programs

The determination of OPS to serve the society and the quest to develop highly skilled personnel in the field of Quality Engineering has led us to impart exclusive training courses and certification in this field and to provide continuing education through knowledge updating, skills upgrading, certification and career development of industry personnel to remain relevant and employable in the fast changing economy.

- OPS is approved as a COJTC (Certified On Job Training Centre).
- OPS is now a Approved Training Organization (ATO).
- OPS Solutions & Services obtained the AWS Approved Agency status.

OPS offer courses mainly in the following disciplines:

- Non Destructive Testing Level II & Level III.
- Custom Courses related to Welding, NDT and HSE.
- Welders training and certification.
